

In

photography

sessions,

students

enjoy

activities

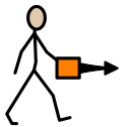

like:

Using

a camera

Taking

landscape

and

nature

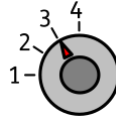

photos

Learning

camera

settings

Practising

composition

Photo

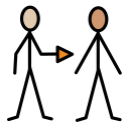

editing

In

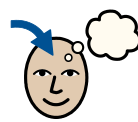

Photography,

you

will

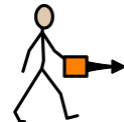

learn

how

to

take

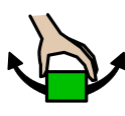

great

photos

and

use

different

kinds of

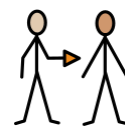

cameras

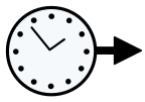

and

equipment.

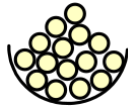

You

will

have

plenty

of

opportunities

to

practice

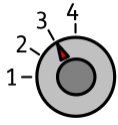

because

our

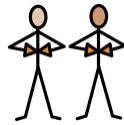

rural

setting

gives

us

beautiful

landscapes

+

and

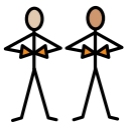

nature

to

photograph.

We

++

also

visit

places

like

towns

+

and

the

seaside

to

get

new

ideas

for

your

photos.

You can

~~23456~~

even

visit

local

photo

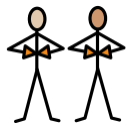

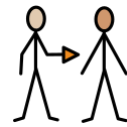

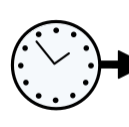

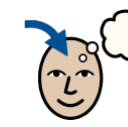

exhibitions

for

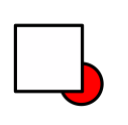

inspiration.

 When we work indoors, you will learn about the

 theory behind photography.

 This includes:

 How light affects your photos

 How to use camera settings

 How to arrange things in your photos (called composition)

 How to edit photos

 How to use artificial lighting to make your photos look

better

We

have

a

photo

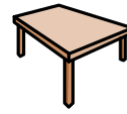

studio

with

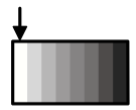

a light

table

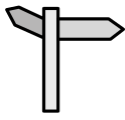

and

light

box,

where

you can

practice

taking photos

indoors.
